
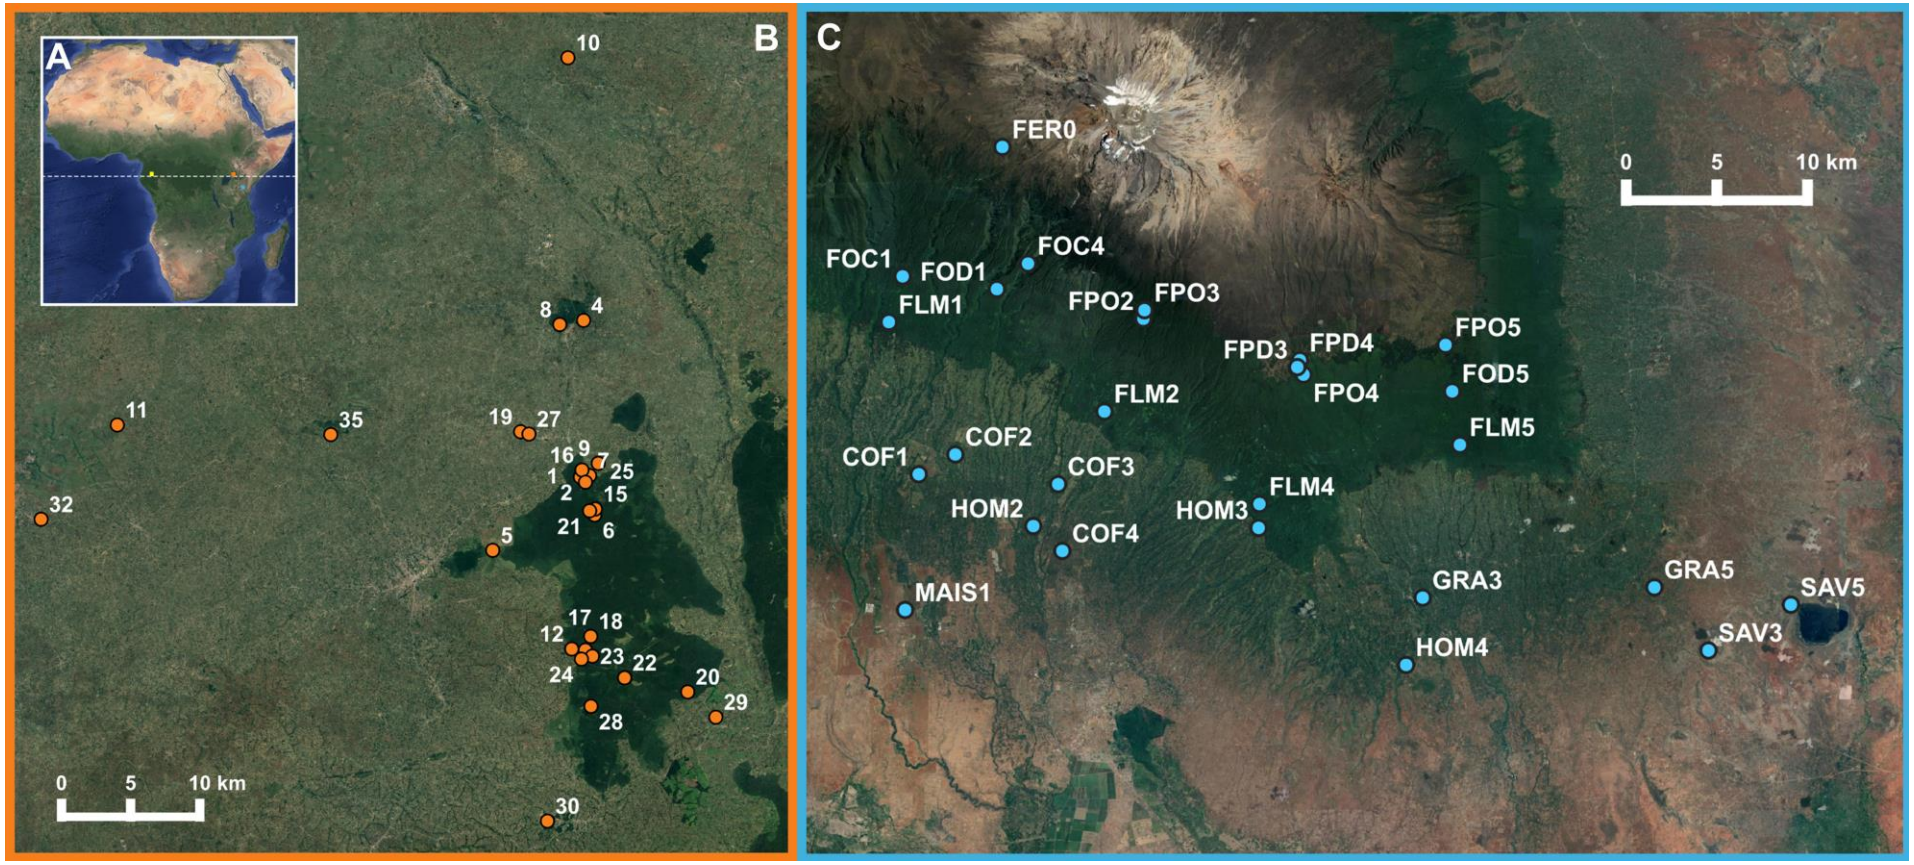

Fig. S1. Maps with sampling locations of the taxonomically studied specimens. **A**. A map of Africa with the three sampling locations in Gabon, Ivindo National Park (yellow square), in Kenya, Kakamega Forest (orange square) and in Tanzania, Mt. Kilimanjaro (blue square). The dashed line represents the equator. **B**. A map of the detailed transect locations in and near the Kakamega Forest (Kenya). **C**. A map of the detailed sampling locations on and near Mt. Kilimanjaro (Tanzania). Corresponding transects and codes are listed in the Material Examined section of each species description.
